Choice Heifer beef for week-end roasts. Turkeys for Thanksgiving, at City Meat Market.

Apparently not realizing that it was almost as cheap to buy gloves at Dave Hay's as to steal them, a gentleman of color, named Joseph Hudson, filled his pockets with gloves and mitts while that gentleman's back was turned on Saturday last. Mr. Hay did not miss the articles until it was reported that Hudson was trying to sell gloves and mitts to thrashers on the street. An investigation was made, and Const. Collett got busy. He did not locate the thief until Monday. When brought up on Tuesday charged with the offence, he pleaded not guilty, but witnesses were produced to whom he tried to sell the gloves, and he was found guilty and sentenced to thirty days at the Fort.

JUST FOR TONIGHT

Backward, turn backward, O time in your flight.

Give me long hair again, just for tonight.

Let me get busy ere memory fades, Washing my tresses and doing up braids.

Let some beau call for me driving a horse,

Even a backboard would not be so worse;

Let us come trotting back, me at his side,

Let me say "Thanks for the old buggy ride."

Let me give parties where all behave well

Proper in manners or stories they tell; Let some good dancer with decorous grip

Waltz me around with no flask on his hip.

O, let me rest from this soul-killing pace,

Throw away compact and cigarette case;

Tune out the radio, let me expand, Playing sweet airs on the upright or grand.

Let me wear skirts that are down to my heels

Put on a bustle to see how it feels; How I'd love low heels, regardless of height.

Give me my corsets back, just for tonight.

A Double Escape

DOCTOR'S DAUGHTER'S STORY

Another Toronto home provides evidence of how a simple cut, scratch or bruise may pave the way to deadly blood-poison, and how vital is the need for keeping Zam-Buk, always handy. When called upon at 3, Business Avenue, Mrs. J. E. Zealley, daughter of the late Dr. Zealley, of St. David's, said: "My boy Alfred scratched his leg with the brass tag of a shoe lace. A nasty poisoned sore developed and it defied all the usual ointments. Hearing splendid reports about Zam-Buk I decided to give it a trial. To my great relief, the balm soon caused healing to set in. All inflammation and poisonous matter was quickly removed by Zam-Buk, and it healed the sore without leaving a scar. "Again when I fell over a steel fender and injured my knee badly, Zam-Buk alone saved me. My daughter, a nurse, was of the opinion that only an operation could remove the mass of inflammation and pus. But I again pinned my faith to Zam-Buk, and it cleansed and healed the wound. All drugs and ointments failed. Zam-Buk at fifty cents per box. Equally valuable for eczema, pimples, cuts, burns, etc.

Strange, Romantic Love Adventures of the Slapper you know

Joanna
by H. L. GATES
Copyright 1925 by H. L. GATES
Published by arrangement with First National Pictures, Inc.

CHAPTER XVII.—Continued

The majority of the men were of course, only silly. Especially, those who were obviously important men of affairs, and who amused Joanna with their common adoption of one phrase, "I wish my wife were like you, now." Three in succession! One who confided to her that he was an attorney representing "some of our very large interests," another whose name was magic in a store that competed with the one she had left, even Pendleton, who had been both a diplomat and a statesman!

As he breathed his response to her buoyant and restless youth, Pendleton indicated to her a pretty woman who probably was forty but looked thirty, and who seemed, in some intangible way, to be not very happy. Joanna saw that her eyes alone followed her husband, Joanna thought she would like Mrs. Pendleton. And she didn't like Pendleton. She gave him an unexpected acknowledgment of his "If my wife were like you, now, I'd know how really to enjoy being in love!"

"Haven't you ever talked that over with anyone? Just for example, Mrs. Marks?"

Offense colored in his face immediately. But the girl in front of him was laughing up at him so brightly that he was helpless.

"Because Doris happens occasionally to meet me for tea," he protested, "doesn't necessarily mean that we have confidences. Anyhow, can't we forget everyone else, for this minute you have given me?"

Joanna couldn't she told him and left him with a parting smile. A moment later she timidly touched Mrs. Pendleton on the arm. "You won't mind, will you," she asked Pendleton's wife, "if I say that I want to know you? You see," she lied, "I have met Mr. Pendleton, and he was good enough to think you might like me. I wish you would."

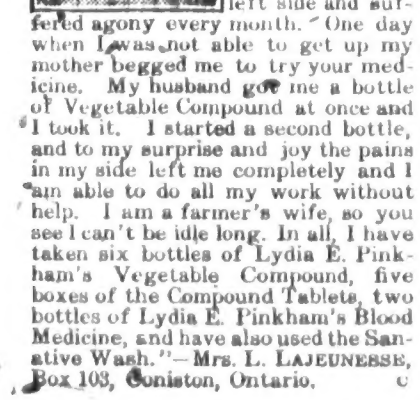

The older woman was plainly confused, but recovered instantly. She took one of the girl's hands between both her own.

"Why, that is sweet of you, my dear," she exclaimed warmly. She was openly delighted by the pretty enthusiasm of the young girl who was the night's most frivolous butterfly. She was afraid she would go down in the torrent that seemed about her for a rent that glittered and swept up laughter, luxury and extravagance, and the stakes of many gambles in love.

OPERATION LEFT HER VERY WEAK

Letter Tells of Wonderful Relief After Taking Lydia E. Pinkham's Vegetable Compound

Coniston, Ontario. "After a severe operation and a three weeks' stay in a hospital I returned home so weak that I was unable to move a chair. For four months I was almost frantic with pains and suffering until I thought sure there could not be any help for me. I had very severe pains in my left side and suffered agony every month. One day when I was not able to get up my mother begged me to try your medicine. My husband gave me a bottle of Vegetable Compound at once and I took it. I started a second bottle, and to my surprise and joy the pains in my left side completely and I am able to do all my work without help. I am a farmer's wife, so you see I can't be idle long. In all, I have taken six bottles of Lydia E. Pinkham's Vegetable Compound, five boxes of the Compound Tablets, two bottles of Lydia E. Pinkham's Blood Medicine, and have also used the Sensitive Wash."—Mrs. L. LAJEUNESE, Box 103, Coniston, Ontario.

Introduces New Sport

Diver Succeeds in Walking Five Miles Under Water

Just to show that "swimming the English Channel is not the only sport," Klas Everetts, Norfolk diver, walked across the bottom of Hampton Roads from Old Point Comfort, Virginia, to the Norfolk naval base, a distance of about five miles. He completed the unprecedented jaunt in two hours and forty-one minutes.

Except for weakness in the legs and a numb feeling in the head and shoulders, Everetts appeared none the worse for his feat. Seated in a huge diving suit with leaden shoe soles, and carrying eighty additional pounds of lead strapped around his body to hold himself down in heavy pressure depths, Everetts slid into the water at 10.49 a.m., and despite many obstacles, including an old ship anchor in which he became entangled, forged ahead and completed his trip at 1.30 p.m. A launch with an air pump accompanied him.

SCOTT'S EMULSION

To a Nursing Mother

Why he was waiting, why he couldn't just then, make words. "Now," she said, softly, "you must tell me why you were going away without even coming up to me." "Because, Jo," he answered, "you already have gone away from me. I have tried to see it differently, but that's the way it is. When I came here, tonight, I thought we would have our hours together—I didn't know it was to be an affair like this! And that you had planned for me to find you in the very midst of the sort of thing you like—that fits you so well."

Joanna settled back, patiently and quietly. The deep brown settled in her eyes.

CHAPTER XVIII.
A Kiss

"Then you don't like my happiness?" Joanna said. "You don't want me to have what my money has made possible for me?"

"I haven't said anything, of that meaning," John declared. "I want nothing else in the world so much as I want you to have happiness, but I wish you could have with it something of real joy, something of the joy of doing things, big things, of the opportunities that have come your way. I am afraid you will never know that sort of feeling. Perhaps it is all right that you shouldn't. Money will mean one thing to you; it would mean something else to me. As it so often does where love is the bargain, it has come between us."

"You mean that because of this we must give up—give up each other?" she was still very quiet, and patient. "What else can we do? How is there any room, or place for me? The little house, with a parlor and kitchen that we planned would hardly be serviceable to you now, would it?" "But, John, we could still find that same house. That is one thing I want to do, right away." She smiled a little. "Only we can make it larger, and with more to it than just a kitchen and parlor—fountains and gardens, and balconies, and the stairways and puzzled halls we used to joke about when we saw them in the movies. We can have all those things now John, that we laughed about. It will be just the house we planned, enlarged to fit my million. Will there be anything wrong about that?"

An Ancient Piano

One of First to Reach America Exhibited at Mississippi Fair

Though its strings have long since become corroded and from its keyboard resound horrible discords, a little piano, said to be one of the first two to reach the New World, will be a feature exhibit at the Mississippi State Fair.

The instrument is the property of City Commissioner R. M. Taylor, who secured it from Miss Rosa Fisher, octogenarian of this city, in whose family it has been for generations. The mate to the piano is said by Miss Fisher to be in Mount Vernon, home of George Washington. Visitors to Mount Vernon describe the pianos as identical.

It is of French make, about 15 inches thick, 28 inches wide and 60 inches long. There are 73 keys, connected in a vastly different manner from the pianos of today.

Has Postponed Flight

Paul Tarascon, the French aviator, will not attempt to fly across the Atlantic in a biplane monoplane for at least eight months and possibly longer. Delays in construction in the plane and bad weather is the cause of the postponement of the flight.

Relieves Asthma at Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. Kellogg's Asthma Remedy, despite its assurances of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

A mummified horse the first known to history, was unearthed recently in Egypt. It is more than 16 hands tall and estimated to be about 3,500 years old.

World's Highest City

Potosi in Bolivia is 13,388 Feet Above Sea Level

The highest city in the world is Potosi in Bolivia, South America. It stands on a great tableland 13,388 feet above sea level. Potosi is also potentially the wealthiest city in the world.

Here in the rarefied atmosphere of that tremendous altitude 25,000 white men and Indians pass their lives under the shadow of their giant Cerro de Potosi, a sinister, inviolable mountain, out of whose bowels fabulous quantities of silver have been dug. Since the discovery of the Potosi mines, 400 years ago, over 20,000 tons of bar silver have been taken from this one mountain alone, enough to form a column of solid silver one square foot in section and rising to 16,000 feet.

In addition, immense quantities of tin, gold, bismuth, copper, marble, and sulphur have been produced. It was Potosi that supplied the bulk of the precious ingots that found their way to Spain in the treasure-galleons of history. The city was founded in 1546 by treasure-hunting Spanish adventurers, and the story of its foundation and growth is told in the ancient archives which still exist in the city today. At the height of its prosperity it could boast of 60 churches and a population of 160,000. But with the abolition of bimetalism and consequent depreciation in the value of silver the city fell upon evil days. The disused factories in the city outskirts and the many magnificent public buildings falling into ruin today tell their tale of decay. It is still, nevertheless, an active and wealthy city.

Says Insane People

Write To Newspapers Is Hobby of Mentally Un-Balanced Opinion of Alienist

"All persons who write to newspapers are not mad, but all mad persons write to newspapers," is the opinion expressed by a noted alienist to a French journalist who with thirty-one other leading newspaper men is collaborating in a book entitled, "One Hour of My Career," outlining their most unusual experiences.

The doctor in question said that he had always asked persons submitted to his investigations whether they wrote letters to editors, and if the reply was in the affirmative he suspected them of mental unbalance. Then the writer enumerated a series of experiences proving that the alienist undoubtedly was right in many cases.

One amateur correspondent suggested that a boulevard be built over the Seine to relieve Paris traffic. Another suggested that the value of bank notes vary from day to day as a solution of the financial problem. Countless persons sent in schemes for a United States of Europe, and the majority sent photographs of themselves and documents concerning spiritism, stenodulism, feminism and vegetarianism.

For every man, he said, there were two women epistolarians, some of whom pretended to be reincarnations of Joan of Arc.

Pain in the Back

Yields to Nervilme

If you have failed to secure relief from other remedies, rub on lots of good old "Nervilme," the strongest, most penetrating pain relief on the market. "Nervilme" acts quickly on small pains and is the surest to drive out the big ones. It's because every drop of Nervilme rubs in, because it has the ability to sink in deeply that it drives away pain that ordinary oil ointments won't touch. Large 35c bottles at all dealers.

Why They Abolished Polygamy High cost of upkeep on modern bobbed hair women brought about the abolition of polygamy in Turkey, according to Mme. Hadji Houshied Bey, a visitor to Washington. Her husband was chamberlain in the royal household under the sultan. When Turkish women dropped the veil and took to short hair and European dress, men found they could not afford more than one wife, and the harem made a forced disappearance.

Ready-made Medicine. You need no physician for ordinary ailments when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, bruises, sprains, it is unsurpassed; while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

Canada Should Develop Strong National Spirit

Children Must Be Taught to Take Pride in Being Canadians

Says the Dorrer Cities Star: If Canada needs anything it is the development of a strong national spirit. Our children, from coast to coast, irrespective of racial sources, must be taught to glory in the fact. Just the other day the writer of these lines talked to an eager-eyed, olive-skinned lad, obviously the son of South European parents. "And what country do you belong to?" the boy was asked. His reply was prompt, "I'm a Canadian," he said, and the words were uttered with pride. That is the spirit. Let's have more of it. And at the same time it would be well for Canadians of Anglo-Saxon strain to be more considerate in their use of the word "foreigner." Except for the Indians, we are all foreigners more or less. Canada has grown to her present position because so-called foreigners were willing to come in. Many millions more of them will be required here before we reach the national success for which every true Canadian should strive. And in Canada, let us make sure, every man who is willing to work should be given fair opportunity and equality of treatment.

BABY'S OWN TABLETS
AN EXCELLENT REMEDY

For Any of the Many Minor Ailments of Infants and Young Children

No mother can expect that her child will escape all the ills to which babyhood and childhood are subject, but she can do much to lessen their severity, and to make baby's battles for health easily won. Nine-tenths of the minor ailments which afflict babyhood and childhood are caused by some derangement of the stomach and bowels. Regulate the stomach and bowels and these troubles will disappear. To do this nothing can equal Baby's Own Tablets. They are a mild but thorough laxative which through their action on the stomach and bowels never fail to banish constipation and indigestion; colds and simple fevers; expel worms; and make the dreaded teething time easy.

Concerning "Baby's Own Tablets" Mrs. A. Koshan, Hamilton, Ont., writes:—"Kindly send me your booklet, 'Care of Baby in Health and Sickness.' I have two little children, four and a half and three years old and have used nothing else for them but Baby's Own Tablets. I think the Tablets are a wonderful medicine for little ones."

Baby's Own Tablets are sold by all medicine dealers or will be sent by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

Blessed are they that mourn, for they shall be comforted.—Matt. v. 4.

Oh, deem not they are blest alone Whose lives a peaceful tenor keep; The Power who pities man has shown A blessing for the eyes that weep.

For God hath marked each sorrowing day, And numbered every secret tear; And heaven's long age of bliss shall pay For all His children suffer here.

God washes the eyes by tears until they can behold the invisible land where tears shall come no more. O Love! O Affliction! ye are the guides that show us the way through the great airy space where loved ones walked. God teaches us, while yet our sorrow is wet, to follow on and find our dear ones in heaven.

Henry Ward Beecher.

Preventing Curvature of Spine

Curvature of the spine can best be prevented, according to a Vietnamese doctor's recent report, by starting with the child when it is very young. Too early sitting up and standing the child around constantly on the same arm of the parent is another cause of curvature of the spine. Flat mattresses in the school age are important, he adds, and sitting all the time or carrying heavy loads is harmful to the growing child.

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

Austrian Farm Workers

Dr. Henri Montel, Commissioner of Immigration for Austria, who has been touring Canada at the invitation of the Canadian Pacific Railway, states that his visit has been satisfactory in every respect and that he expects as a result that Canada will next year receive 1,000 Austrian farm workers, the first influx of immigrants from that country, and that in succeeding years Austrian families will arrive for settlement in increasing numbers.

Stories About Famous People

London Theatre Manager Has Entertaining Book of Anecdotes

In an entertaining book of reminiscences Sir Squire Bancroft, the London theatre manager, tells a quantity of good anecdotes about famous people he has known.

One, which we think has been printed before is that which Browning, the poet, told him of Longfellow.

The two poets were once driving through the London streets in a hansom cab, when a heavy shower suddenly came on. Longfellow insisted upon thrusting the umbrella through the trap in the roof of the cab, so that the driver might protect himself from the rain—which he did. That is precisely what you might expect Longfellow to do—a kind-hearted generous gentleman if ever one lived.

Another concerns George Du Maurier, the famous illustrator and author of Trilby. He was always annoyed when anyone called him do Maurier. Instead of du Maurier, he said once: "Fellows will write to me as do Maurier; I wish they would give the devil his due."

The third story is about Archdeacon Wilberforce, who was one of the earliest foes of the evolutionary hypothesis of Darwin. The Archdeacon was visiting Sir John Hare at his seaside home at Overstrand, and Hare, who was very fond of dogs and was hardly ever to be seen without one by him, asked him this question: "Do you really believe, Archdeacon in a hereafter for our dogs?"

"Indeed I do," said Wilberforce.

"But do you mean that I shall really see my dog again?" Hare persisted.

"Undoubtedly—if you are good enough," was the response.

Fabric Made From

Tropical Grasses Believe Problem of Making New Product is Solved

We may soon be wearing suits or frocks made from grass, for two doctors of the Birmingham and Bristol Universities believe they have solved the problem of turning tropical grasses and various fibrous growths into material for personal wear, both for ladies and gentlemen.

The fibres are separated preparatory to spinning by a special chemical process; and the present spinning and weaving machines will need very little alteration to be able to deal with them.

Not only will the product be as strong, or even stronger, than cotton, but the cost up to the spinning stage will be only about a quarter that of the present system.

The cost of clothes and other articles made from this fabric will not doubt be cheaper, too, for the various grasses can be obtained in abundance, at a very reasonable rate, in the British Empire.

Employment Industry Is Good

The employment situation in Canada continued to show improvement in September, according to returns made by 5,799 firms employing staffs aggregating 859,738. The index number at the beginning of September, at 104.9 was better than that of any September since 1920.

Brazil newspapers, when they get out an "extra," first let the public know of the event by blowing a strident siren.

Englishmen pay probably the highest income tax in the world. A married man with one child whose income is \$2,000 a year, pays \$26; at \$3,000 he pays \$125; and at \$5,000 he pays \$450.

Among summerers in England the commonest are Smith Jones, Brown, Taylor, Davis, Wilson, Walker and Morris.

Invitation Is Unanswered

Prince Invited to Dinner by American Unknown to Him

The Prince of Wales has received a cable invitation to join an American and his wife at dinner on their arrival in England soon. The cable, which was addressed: "Prince of Wales of England, St. James's Place, London," read:

"My wife and self will be honored if you will dine with us on our visit to London next month. Name your company and your date."

It was the first the Prince had heard of his would-be American hosts whose names have not been made public. The invitation remains unanswered.

Catarrh and Catarrhal Deafness May Be Overcome

If you have catarrh and are troubled with defective hearing or buzzing, ringing noises in your head; if choked nostrils, a constant loss of taste or smell and mucus dripping into the back of your throat are a source of daily discomfort and annoyance, you should take immediate steps to overcome this bothersome and highly infectious condition by using a little Gero Wormwood Balm twice or thrice a day.

This safe, pleasant and delightfully effective Wormwood treatment, when applied into the nostrils gives quick and satisfying relief because its healing antiseptic vapors instantly penetrate into the air passages of the head, nose and throat.

Your breathing is easier, your choked nostrils promptly open up and your dull old head feels clear and clean. All good druggists sell Gero Wormwood Balm on a positive guarantee of perfect satisfaction or money refunded. Try it tonight!

The "Seven-Second Men."

Name Given to Motorists Who Get Caught at Railroad Crossings

A new name has been given to dead motorists who have tried to beat the train to railway crossings and have not succeeded. A slogan has also been built around the name based on the rather appalling death list. The computation of those called "seven-second men" puts them at 1754 in numbers yearly and the byword regarding those who have come to these quarters with the cow catchers and creased is "lose seven seconds and you may gain fifty years," that many fractions of a minute being the average in point of time of a train of cars occupied in getting by a crossing. The battle to save the lives of the reckless is being preserved in, especially by the railroads, with only more or less encouragement by those who have all to gain.

A man was arrested and fined in Egham, England, for driving a steam roller faster than five miles an hour.

Are You Forcing Your Boy To Leave Home?

WE talk a great deal about keeping our boys at home. What, besides talk, are we devoting to accomplish this?

Remember youth goes where opportunity looks the brightest. Remember the Dollar is one of the world's greatest builders of opportunity.

Are you spending your dollars where they can help build home business, help stimulate local enterprise and create home opportunities? In a word—are you spending your money at home?

Somewhere the dollars you spend will be at work. Somewhere those dollars will be building opportunities. Somewhere they will be developing communities, making them better places in which to live and work.

Do you want that building to be at home or away?

When the peddler tells you his fanciful story of big savings and super-values—think. Not only will your home merchant do as well for you but—

Think of the bigger savings brought

by dollars spent at home. Think of the dollar energy you are conserving for the upbuilding of your home community—an up-building that will mean bigger and broader home opportunities.

Opportunities make the tie that binds. They will keep the boys at home.

CENSUS figures show a constant drift of population, towards the large cities. More than half of the people of Canada are now classified as city residents.

More and more this drift to the large city has restricted the opportunity for independent business careers.

Prosperous, vigorous small towns afford the greatest opportunity for independent business. They have the most direct influence on the values of the farm land immediately about them.

Money spent with peddlers builds no values that can help you, and the only opportunity that money helps to create is the opportunity for your boy to spend his days working for some one else in some distant city.

A WORLD WAR — OR WORLD PEACE—WHICH?

In an article which I wrote for the "Globe" and which was published on the 7th of October, I tried in my humble way to warn everybody of a coming cataclysm—and how Mussolini would be the fence on which (our would be) dictators would try to focus our imagination and I tried to show how we were being led astray—so that the main offensive could be carried on without causing uneasiness to the world at large. This was the way in which the Great War was

approached

In taking up the Edmonton Bulletin I find printed in glaring thick red type on the top of the first page, "Mussolini Plans War on Turks" and this two weeks after I wrote my article, this article can be read by anyone who cares to get a copy of the Edmonton Bulletin Oct. 9th last. In that same paper a synopsis of a talk given in the Memorial Hall at Edmonton by Dr. Scott Nearing, should be read by everyone and if everyone would read these worth while talks we should be better able to understand where we are drifting

to. Do you want to know where we are drifting? I make my own deduction. When you look carefully on the old beaten tracks and find they don't lead you anywhere—what ought you to do? My idea is that it is about time you put on your own thinking cap and if everybody would do that don't you think a contented world would result? I am perfectly certain of it!

Do you know to begin with it is distinctly proved that it cost \$25,000 to kill each separate man killed in the Great War—Where did the money come from? Where did it go to?

Who has to pay for it? Who got it? Is it fair to put human life on the balance with dollars and cents? Civilized warfare means and is suicide for civilization.

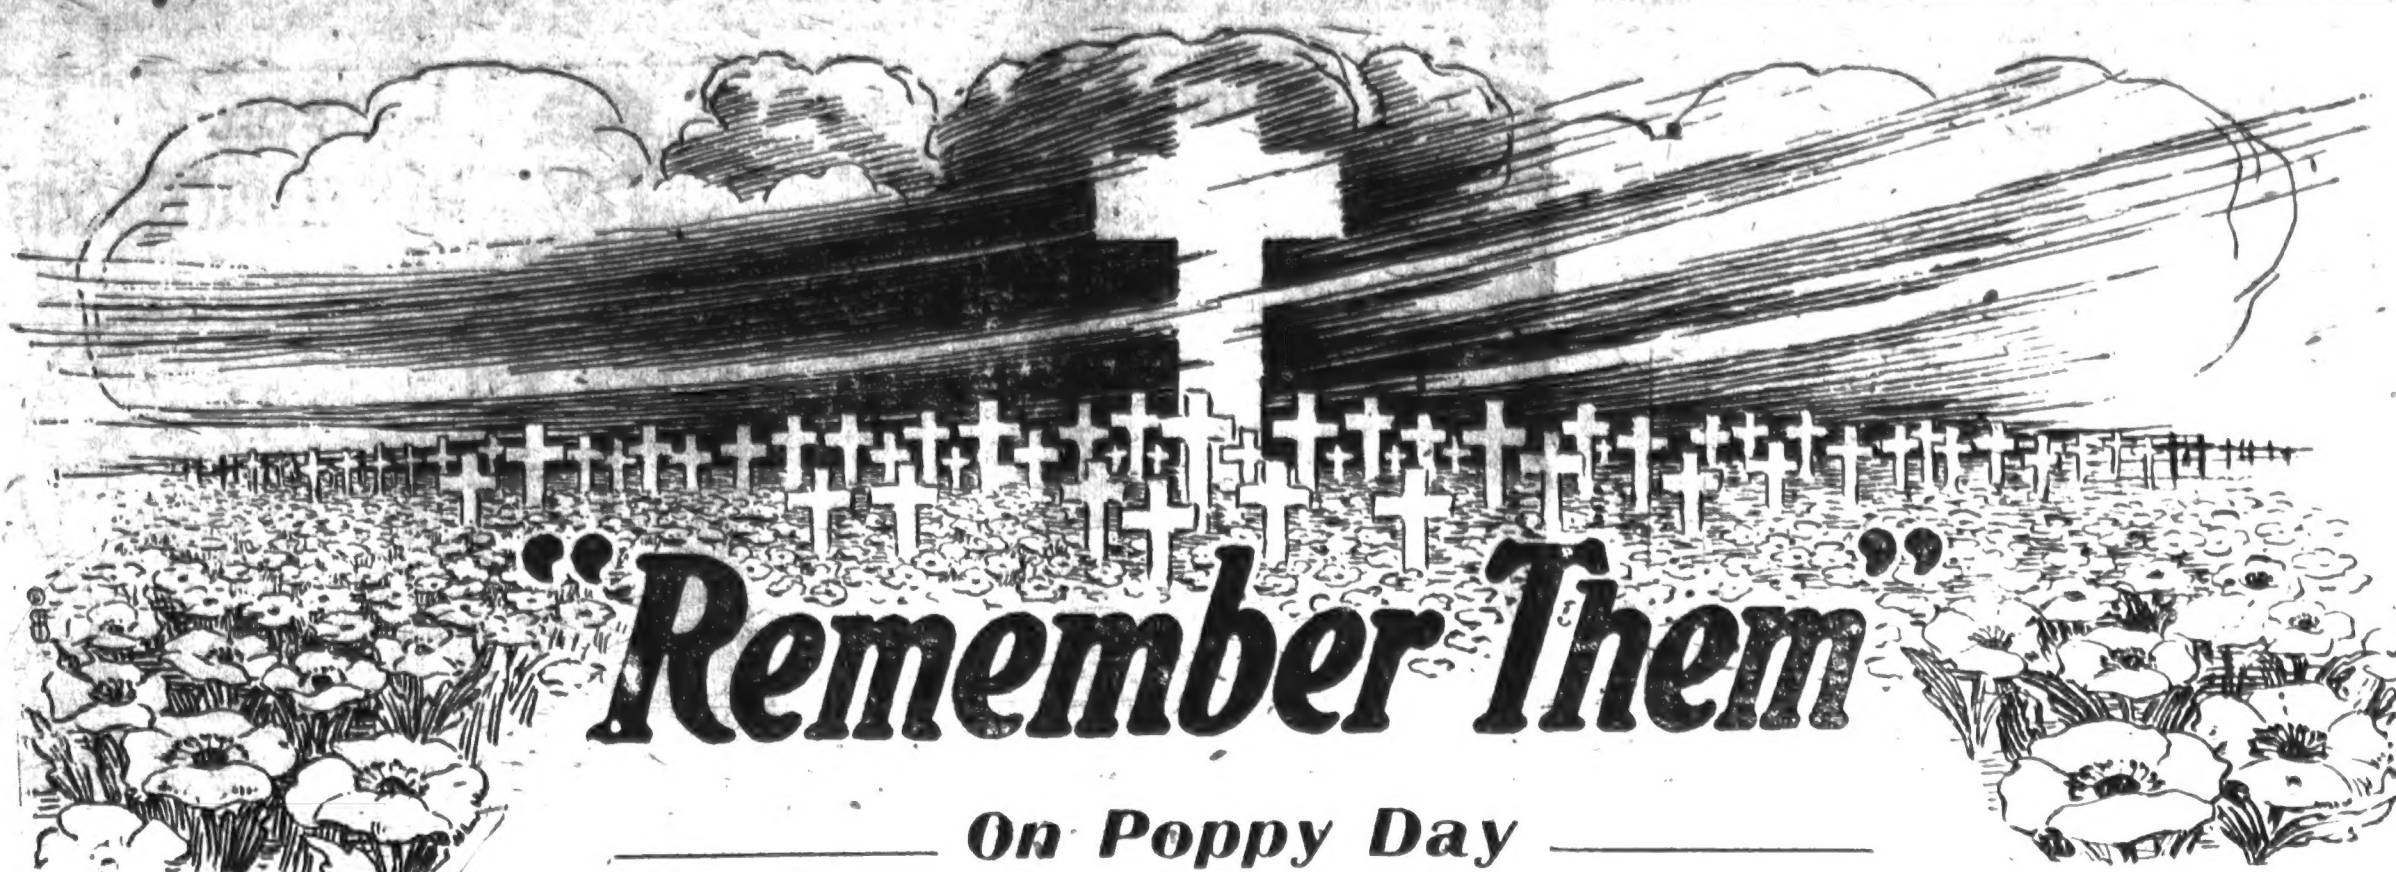

The general trend of the present generation is to say—Oh! I cannot bother with this kind of thing, it is not in my line, WHY? Is it no affair of yours if humanity is to be destroyed, wiped out for the sake of someone else's greed? Will you still be dragged—like a bull—with a ring in his nose—and still say it is no affair of yours!! Do you know that three-fifths of the gamblers at Deauville

Monte Carlo, etc., are women—and that they are loaded down with diamonds, diamonds are the rage there, and my friends, I think you know diamonds—cost more money than most goods—this hard earned money created by industrialism and not created by the gamblers themselves—I was brought up from childhood to believe in the Bible statement "That if a man does not work—neither shall he eat."—My readers, I make this statement knowing as you also know we are wedged to the one fact—chasing the almighty dollar. Why are we in this predicament? Who is

instilling this into our systems? When by a little more brotherly love and understanding—better understanding of the world's affairs, would make a more contented and peace loving, prosperous world for all?—regardless of creed, or sect.

As I said in my last, and and I say again, why not scrap the WAR DEPARTMENT?? And put in its place one great PEACE DEPARTMENT?? For the information of all reading this article, I will say I understand war, having still in my possession my war medals.

Frank K. Healing, Morningside.

BLACKEALDS

It is estimated that more than fifty per cent. of the grain is now threshed, and another week of good weather should see most of the grain in the elevators and granaries. The grain is in the most cases much better than had been expected. The yields are also in most cases high. Just a few we have heard from runs as follows. 32 bushels per acre on a 100 acre field. 36 bushels per acre on a 70 acre field. 45 bushels on a 15 acre plot. 52 bushels per acre on a 30 acre field. 55 bushels per acre is reported by two farmers.

Mr. O. Hougan taking a week off in duck hunting has returned, having had good luck. He and another gentleman in the party were successful in bagging a round hundred. This was better luck than Mr. Hougan experienced Sunday as he visited Buffalo Lake with his family, and when returning home, ran into a cloud-burst east of Lacombe. The mud was awful, and his car got stuck, and we know the rest, as many of us have had like experiences. If he had returned a few miles South the roads would have been high and dry.

At the last Ladies' Aid meeting it was decided to put on a Chicken Dinner on Friday, Dec. 10th.

On Saturday near one of the town barns, the little kids who were playing wishing to see a blaze, got a match and set fire to some straw. Luckily it was noticed by some seniors and was put out. The boys ought to be carefully warned about the use and misuse of matches. The little children are also digging a tunnel in the bank of the hill on the south of town. This is dangerous, as a cave in might occur if gone in too far.

New Lower Prices Still Greater Values

Lighter Six Chrysler "60" Prices

(Effective Midnight October 9th)

	OLD PRICES	NEW PRICES	SAVINGS
Club Coupe	\$1605	\$1555	\$50
Coach	\$1700	\$1650	\$50
Sedan	\$1835	\$1785	\$50

Touring Car \$1485; Roadster \$1585

All prices f. o. b. Windsor, Ontario (freight only to be added), including all taxes, bumpers front and rear, spare tire, tire cover and tank full of gasoline

The new lower prices now announced for the Chrysler "60" are made possible by vastly increased sales and production. The ever-growing demand for all four Chrysler models—"50", "60", "70" and Imperial "80"—produces savings now coming to you in the refined, lower-priced "60".

The added economies which come from this volume of more than a thousand Chrysler cars per day have their root and source in Chrysler Standardized Quality.

This unique plan of co-ordination between scientific engineering and pre-

cision manufacturing gives Chrysler "60" its remarkable value—evidenced by a speed ability of 60 miles and more per hour, dashing flexibility, matchless economy, smoothness, handling ease, comfort and long life—qualities which placed Chrysler "60", even at its old prices, far beyond comparison.

Today, at its new lower prices—with exactly the same performance ability, with exactly the same quality—the Chrysler "60" stands forth more emphatically than ever; a value not even remotely approached by any other light six in the industry.

Sixty miles, and more, per hour. Pick-up of 5 to 25 miles in 7 1/2 seconds. Amazing economy of 26 miles to the gallon. Characteristic Chrysler smartness and beauty. Phenomenal riding ease. Chrysler four wheel hydraulic brakes. Oil-filter and air-cleaner. Full pressure lubrication. Seven-bearing crankshaft. Impulse neutralizer. Manifold heat control. Road levelers, front and rear. Chrysler proved long life. Roomy, luxurious bodies with beautiful upholstery in enclosed models. Attractive new color harmonies.

The New Fall and Winter Suits are Here

Our stock of Fall and Winter Suits are now ready for your inspection, and men who like something a little different from the ordinary, are invited to visit our store while the lines are complete.

This showing offers you plenty of "good buys". Single or double-breasted two or three-button models. Tailored of select summer materials such as Cheviots, Cassimeres, Tweeds and Serges. Styles are such as are well becoming to any man—whether he be in search of something with snappy lines to it or just a plain, everyday business suit. The colorings run chiefly in greys and browns, although we have many in darker hues. Solids, mixtures, checks or stripes—as you like.

MEN'S TWEED SUITS

One splendid value you should take advantage of, is a fine hard finished tweed, guaranteed to look well and wear well, and which cannot be duplicated at the price anywhere. The same suit is selling at a very special sale in Edmonton for \$19.50, and it is worth more than that. We made a splendid buy of this line, and pass the advantage we secured on to our customers. Our price for this splendid fall or winter suit is

ONLY \$16.50

MEN'S WORSTED SUITS

We have another line of high class Worsted Suits, none better in Canada, made by the largest manufacturers of High Class clothing in the Dominion, which we are selling at

\$22.50 to \$35.00

MEN'S FURNISHINGS

Our line of Men's Furnishings was never more complete. We have the very latest in neckwear, gloves, shirts, hosiery, etc., and our prices are lower.

Ottawa. The popular bicycle is still holding its own against motor cycle and flyover. A report of the Dominion Bureau of Statistics shows that Canadian bicycle factories in 1925 increased their output by 19 per cent. over 1924. The five Canadian firms making these "wheels" are all in Ontario.

A decision was reached at a meeting of the Directors of the Bureau of the Department of Railways, held recently, to undertake the construction of a submarine tunnel under the Shimonoeki Moji Straits at an estimated cost of \$10,000,000. This will connect the Main Island of Japan with Kyushu, the Southern Island.

Alberta has one of the most wonderful wild game hinterland in North America, according to Adolph Muller, of Norristown, Pa., game commissioner of the State. He expressed this opinion after spending a month in the interior of the province, exploring and taking motion pictures, including some of caribou on the track.

Two brothers, George and Edward Hume, of Manor, Saskatchewan, carried off the Canadian Pacific Railway and the Dominion Livestock Board awards in the recent pig clubs competition conducted by the Extension Department of the University of Saskatchewan at Saskatoon. Teams from all parts of Saskatchewan competed.

BENTLEY

Many of the threshing outfits have completed their runs and have pulled home. During the last two weeks threshing has been better than it has been for a number of years.

Mr. Geo. Raymond reports wheat yielding 50 bushels per acre and grading No. 3. George generally has a good crop.

The young people of the district interested in the Pig Club, held their final meeting in Bentley on Tuesday. The pigs were a credit and the judging by the young people was excellent.

Miss Dorothy Darnon has resigned from the Bank of Montreal Staff. She was presented with a beautiful casserole by the remaining member of the staff.

There were not many Halloween pranks pulled off in the town.

The W. I. of Lockhart put on a very successful and enjoyable masquerade and dance last Saturday evening. Mrs. W. Jaffray, dressed as a hobo won first prize.

Mr. and Mrs. Bruce Murray are visiting Mrs. Murray's parents Mr. and Mrs. E. Chovan.

Harvest Thanksgiving services were held in Bentley Union Church last Sunday. The church was suitably decorated and the choir rendered special music.

There was an exceptionally large crowd at the picture show last Saturday night—"Behind the Front". It was a screaming picture, next Saturday night's show "Wet Paint" will be just as good.

F. W. Thorp gave a short course of instruction in sheep pasture pool to Messrs. R. B. Garries, John Blish and son Gene on the local links over the week end.

There were many callers at the home of Mr. and Mrs. Young on Monday, Nov. 1st, when Mrs. Young attained her 90th birthday. The Ladies' Aid of which Mrs. Young is an honorary member, presented her with a two tier birthday cake, surmounted by candles. During the afternoon, tea was served, and the cake was cut and sampled.

DEATH OF
MISS ELIZA SUTHERLAND

After an illness of several months, Miss Eliza Sutherland, died at the home of her sister, Mrs. Wm. Cranra, on Friday morning last. Deceased was one of Lacombe's most highly respected young ladies, and took an active part in duties connected with St. Andrew's Church, of which she was an active member, and was also secretary of the Lest We Forget Club of Lacombe. For the past several years she had been engaged with the McDermid Drug Co.

The funeral took place on Sunday, service being held in St. Andrew's Church. There was a very large attendance, and Rev. Mr. Layton, during the course of his sermon, paid a very high tribute to the ability and sterling qualities of the deceased. The Lest We Forget Club were all in attendance, and the coffin was banked with beautiful floral offerings from many friends.

During her residence here, the late Miss Sutherland endeared herself to the majority of our citizens, and her untimely demise is keenly felt by all.

A WORD TO PARENTS

Lacombe, October 27, 1926
The Editor, Western Globe.

Dear Sir:—

May I impose on your space to place a few facts before the parents of the pupils attending the Lacombe High School.

1 The work of the school must fail if the teachers do not have the closest co-operation with the parents.

2 Our present curriculum is heavy and requires very close attention, on the part of the student, to his studies, that a successful year's work may be accomplished.

3 The failure to secure passing marks in the June examinations in one or more subjects lengthens the time required to secure Grade XI standing from three years to four, and even five years.

4 Please accept the homework report sheets sent out in the spirit in which they are meant, namely: The closer co-operation of home and school and a smaller percentage of failures in the June examinations.

5 Take an interest in the work your child is doing. Encourage him to do his best work. Discuss with him plans for his future and thus set before him an objective towards which he will strive.

6 Give the teachers your moral support in the home. You can rest assured that the teachers are doing all in their power to accomplish the task assigned to them in a creditable manner.

Yours truly,
Geo. K. Sheane, B. A.
(Principal)

THE BIG ATHLETIC
CONVENTION

The Lacombe citizens will have as their guests next Monday night delegates from all over the province, attending the Provincial Amateur Hockey Association Convention, which will be held in the Elk's Hall, and it is expected that some of the best known hockey supporters of the province will be in attendance for the purpose of making any amendments to the constitution and by-laws that will be presented; also the election of officers for the coming year.

Besides the Provincial delegates there will also be a meeting of delegates, representing the Big Four League, to elect officers and make any changes that will be submitted to the playing rules, and get under way with their organization for the coming season.

This is the first big Sporting Convention that Lacombe has had the honor of having for many years, and the Mayor, City council and the Elks are joining to assist in entertaining the delegates.

The entertainment will take the form of a smoker and musical, with a few athletic exhibitions. It is also expected that the Elks' Band will be in attendance to furnish a musical program. Well known vocal and musical artists will be on the program to assist in entertaining visiting delegates. A buffet luncheon will be served in the club rooms, and everything is being done to make the visitors' stay a pleasant one, so that they will leave with a good impression of Lacombe and the district.

The ladies organization of Provincial Hockey Association will be represented by Miss Geneva Misker, M.A., Ph. D. who will look after the ladies' part of the programme for the coming season.

The Black Silver Trophy which was won by the Lacombe Hockey team at Banff, last winter will be presented to the Big Four Hockey Champions at the smoker. Archie Macconnachie and Dr. J. S. Irving, past President and Secretary, are making preparations to meet the delegates on their arrival in Lacombe. It is expected that the Lacombe Hockey Team will be guests of honor at the smoker.

David Hay and Bill Amell will be

Lacombe's delegates to the business meeting. The entertainment and smoker will be open to everybody and lets turn out and show the visitors that Lacombe is a Real Live Hockey Town and that they are proud of their championship Hockey Team.

BAD CHECK ARTIST GETS SIX
MONTHS

John Soletir, a transient visitor of the city, was given speedy justice on a false pretenses charge on Wednesday, and will be the guest of the province at the Fort for the next six months.

John went into into Parson Bros' jewelry store Saturday afternoon and made a purchase and tendered a check for \$65. The check came back Monday morning marked non funds, and Parson Bros. called Joseph Collett of the A.P.P., and gave a description of the man, who had reached Camrose since the illegal tender of the bad check. Const. Collett brought the accused back Wednesday and he asked for a speedy trial. John appeared before Magistrate Jones and was sentenced two hours after his arrival from Camrose, and within an hour was on his way to the fort.

Const. Collett is being congratulated by the merchants for the quick work in picking up the bad check artist and illegal operators would be advised to stay away from Lacombe.

ATTEMPTED SUICIDE

While suffering from a fit of temporary insanity, Mrs. O. C. Odberg, a highly respected resident of the Bentley District, set fire to all the buildings on the farm, which were totally destroyed, together with their contents, and then attempted to kill herself. She took a large dose of iodine, which failed to have the desired effect, and she then cut the veins of both wrists with a razor. She was also unsuccessful in this attempt, and neighbors intervened before she could accomplish her desire. Const. Collett was called out, and took charge of the unfortunate woman. As her mental state was in doubt, a speedy trial was secured for her on a charge of attempted suicide, and on Saturday Judge Mahaffy committed her to the mental hospital for observation.
